

Central Jersey Branch

ASCE CJB proudly presents our October Technical Meeting: Route 36 Highlands Bridge over Shrewsbury River

NYSPIE Continuing Education Credit for 1 PDH APPROVED!

Speakers: Pankesh Patel, P.E., PMP (NJDOT)
Lynne Baumann, PE (Jacobs Engineering Group, Inc.)
Raymond Mankbadi, PE (Hardesty-Hanover, LLP)

Date: Tuesday, October 20, 2009

Time: 6:00-7:00 pm Reception & Dinner
7:00 – 8:00 pm Presentation

Location: College Of New Jersey
Eickhoff Hall, Room 1855
Ewing, NJ 08628

Phone: 609-771-2797

Cost: \$30.00
\$10.00 (Students w/ID)

This presentation is an overview of the design and the construction of Route 36 Highlands Bridge project. The bridge is approximately 1611 ft. long providing two twelve foot traffic lanes, one eight foot shoulder/bike lane and one eight foot sidewalk in each direction on the bridge. The width of the bridge is approximately 92'-3" wide and provides for a center median. The structure will eliminate many existing substandard features such as bridge structural deficiencies, substandard design features and vehicular and marine traffic conflicts. Improvements to both the eastern and western approaches to the bridge, new turn around within the Sandy Hook Unit of Gateway Recreational Area and bicycle/pedestrian connectivity throughout the project limits are included in the project. The connection of all local trails is being completed with the extension of the Sea Bright Trail into the Park along Ocean Avenue and the addition of two pedestrian overpasses on the east end of the bridge to provide continuity from the bridge over Ocean Avenue.

Please contact Ray Mankbadi @ 609-538-8233 rmankbadi@hardesty-hanover.com for reservations and for any additional information. **Please RSVP by Friday, October 16, 2009.**

Please make checks payable to "ASCE Central Jersey Branch"
