

FEBRUARY 1st Meeting Topic: “Civil Engineering in Huntsville”

The speaker for the February meeting is James T. “Tom” Cunningham, P.E. A graduate of the University of Kentucky, Tom has been serving as the City Engineer for Huntsville since 1993. Tom will be providing a brief overview of the many active civil engineering capital projects in the City of Huntsville as well as providing insight into future projects.

Cost of the luncheon will be \$13. Please email in your reservation to Gary Gleason at gary.gleason@hsvcity.com.

PARTICIPATE IN ASCE’S 2005 REPORT CARD FOR AMERICA’S INFRASTRUCTURE

Help Evaluate Infrastructure Concerns in Your Community

Thanks to the ASCE members who have already responded to our request for information about infrastructure concerns in your local area. We still need your help! In preparation for the ASCE 2005 Report Card for America's Infrastructure, to be released March 9, 2005, we ask the membership to provide feedback about infrastructure conditions in local areas. Input from ASCE members provided invaluable assistance in the preparation of previous report cards.

[Click here to complete a brief online survey](#)

Please note that you will need your ASCE member ID number to complete the survey. If you are not sure of your ID number, call ASCE toll free at 1-800-548-2723.

If you have already taken the time to register your concerns, thanks! Please encourage your fellow ASCE members to participate in the survey.

Thanks for your time. If you have any questions regarding the survey or the Report Card please contact ASCE's Communications and Government Relations Departments at govwash@asce.org or 202-204-2500.

RECRUIT MEMBERS FOR ASCE AND EVERYBODY WINS

ASCE counts on our members to help us grow every year by actively participating in the **Member-Get-A-Member Drive**. The Drive is vital to ASCE...in fact it's one of the most effective ways to bring in new members for ASCE. But it does more than just help ASCE. Our members tell us that they enjoy helping their colleagues discover the professional benefits of ASCE membership. It gives members the opportunity to get involved with ASCE and contribute to their colleague's success.

This year, the Member-Get-A-Member Drive offers participants more opportunities than ever to **win prizes**. Drawings will be held at the end of every quarter to award prizes to members who have sponsored colleagues during that quarter. With prizes changing quarterly, and ranging from cash awards to gift cards, there will be something to please everyone throughout the year.

Visit www.ascedrive.org for more details.

CIVIL ENGINEERING JOB OPENING

AJT is searching for a civil engineer and an electrical engineer to fill vacancies at the AJT office located at Marshall Space Flight Center (MSFC). Work will support NASA's MSFC Facilities Office, and civil engineering duties include site planning, drainage, secondary containment design, remediation, surveying, and other related civil engineering projects. Electrical engineering tasks include power distribution, lighting, and other related activities.
