

# MARCH 2024 MEETING ANNOUNCEMENT

This month we will be hearing from:

***Daniel Nichols, P.E., CCCA***

Title:

***Case Studies in Rural Water and Sewer Systems***

Daniel Nichols, PE, CCCA leads the Water Resources & Rural Development team at KUNA Engineering. He has been working in construction and engineering since 1991 when he started working for Alaska Testlab. In 2002, he graduated with a master's in civil engineering from BYU and then moved back to Alaska with his family. Since then, he has focused on rural development across Bush Alaska. He enjoys fishing and hiking with his family and speaks Mandarin Chinese.

Daniel will present what to do and not do when designing and constructing water and sewer systems in rural Alaska. He will cover lessons learned from systems in Anderson, Voznesenka, Noatak, Kotzebue, Buckland, and potentially more.

**WHEN: March 13, 2024 1200 - 1300**

**WHERE: Mat-Su College, Room JKB 128**

**LUNCH: \$10 for PIZZA**
