

ASCE
Southeastern Branch – Michigan Section

Young Civil Engineer of the Year Award

This award is to recognize the younger members of the Branch for their continuing and active service to the branch and the profession. The person, or persons nominated should be active members of the ASCE Southeastern Branch of the Michigan Section and meet the guidelines listed below:

- An individual or group of individuals may submit nominations. All candidates must be nominated through the ASCE SE Branch.
- Information that is provided should be as complete and accurate as possible. This information should be descriptive of the professional service and the service to the Southeastern Branch activities that the member has completed.
- The candidate civil engineer must be living at the time of his/her nomination and should be an active member of the Southeastern Branch of the Michigan Section to be eligible for the award.
- A civil engineer who has moved out of state (or the country) may still be nominated for service during his/her residency in the Southeastern Branch.
- Active members of the Board of Directors and/or the Award Committee shall not be eligible for the award if competing candidates' participating years in ASCE exceed those of the member candidate. Members shall automatically be eligible if no competing award candidates are submitted for consideration.
- The candidate shall be 35 years of age or less as of the date of the State Section Meeting (May 18, 2017)
- A color slide or .jpg computer file of each nominee would be appreciated for use at the awards dinner press release.

The Southeastern Branch of the Michigan Section serves members of the civil engineering profession in Lenawee, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne counties.

Nominations must be received by January 20, 2017. Send the nomination information to:

Dana Temerowski
Southeastern Branch Awards Committee Chairman
SSOE Group
1050 Wilshire Drive, Suite 260
Troy, MI 48084

Outstanding Civil Engineering Project of the Year Award

This award is to recognize a project that has demonstrated, through the design, coordination and execution of the construction, the highest level of engineering skill and that represents the greatest contribution to civil engineering progress. The project nominated should be a completed project within the area of the Southeastern Michigan Branch and has met the guidelines listed below:

- The project must be substantially completed and put into service or be ready for use. Phased projects may be submitted upon completion of a particular phase or segment. It is that phase or segment that must meet these guidelines.
- No project or project segment may be re-nominated after receiving an award.
- Information that is provided should be as complete and accurate as possible.
- Information submitted should clearly state the services each project participant provided.
- The project must exemplify some aspect/s of civil engineering.
- The project should demonstrate use of innovations in materials, technology or construction methods.
- Resourcefulness in planning and in the solution of design problems should be evident.
- The project should contribute to the well being of people and communities.
- Each project's potentially adverse effects on society and the environment should also be considered.
- Either the project or the headquarters of the prime design or construction firm must be located within the area of the Southeastern Michigan Branch.
- A color .jpg computer file would be appreciated for use at the awards dinner and press release.

The Southeastern Branch of the Michigan Section serves members of the civil engineering profession in Lenawee, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne counties.

Nominations must be received by January 20, 2017. Send the nomination information to:

James F. Bliskey, P.E.
Quality of Life Project of the Year Award

"Engineers shall hold paramount the safety, health and welfare of the public and shall strive to comply with the principles of sustainable development in the performance of their professional duties."

-Canon 1 of the ASCE's Code of Ethics

This award is to recognize a project for the improvement of the quality of life that has demonstrated through the design, coordination, and execution of the construction, the highest level of engineering skill. The project nominated should be a completed project within the area of the Southeastern Michigan Branch that has met the guidelines listed below:

- The project must be substantially completed and put into service or be ready for use. Phased projects may be submitted upon completion of a particular phase or segment. It is that phase of segment that must meet these guidelines.
- No project or project segment may be re-nominated after receiving an award.
- Information submitted should clearly state the services each project participant/firm provided and be as complete and accurate as possible.
- Emphasis will be on small community or private projects.
- The project should demonstrate use of sustainable site design concepts and clearly describe them with their resultant positive impact on the environment, natural resources, habitat, system flows/demand, etc.
- The project must advocate economic approaches that recognize natural resources and our environment as capital assets.
- Promote multidisciplinary, whole system, integrated and multi-objective goals in all phases of project planning, design, construction, operations, and decommissioning.
- The project may consider reduction of vulnerability to natural, accidental, and willful hazards to be part of sustainable development.
- The project should contribute to the well being of people and communities.
- Each project's affect (positive/negative) on society and the environment must be considered.
- Either the project or the headquarters of the prime design or construction firm must be located within the area of the Southeastern Michigan Branch.
- A color .jpg computer file would be appreciated for use at the awards dinner press release.

The Southeastern Branch of the Michigan Section serves members of the civil engineering profession in Lenawee, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne counties.
