BAYONNE BRIDGE

INCREASING NAVIGATIONAL CLEARANCE

With the coming era of taller cargo ships, the Bayonne Bridge represents a potential constraint to the growth of Ports Newark and Elizabeth as shipping must pass under the bridge to reach the Ports.

Join us with Joseph LoBuono, PE of HDR Engineering, Inc., as our guest speaker. Mr. LoBuono is HDR's Principal Engineer for the Bayonne Bridge Feasibility Study prepared for the Port Authority of NY & NJ.

SEPTEMBER 24th, 2009

Registration begins at 5:30 PM and
Dinner at 6:30 with presentation to follow
