The Newsletter of the Palm Beach Branch, Florida Section of the American Society of Civil Engineers

President's Message

Greetings Palm Beach Branch members,

I hope everyone has had a great fall and is looking forward to the holidays! ASCE Palm Beach Branch enjoyed some great presentations at our monthly lunch meetings recently including Amber Mathis' excellent presentation on planning for trees, Paul Nicholas & Clint Sockman's presentation on the City of Lake Worth Solar Project, and Elizabeth Landowski's presentation on Flipping the Script on Infrastructure. The EWRI chairs also held a great meeting in October with Dr. Ali Alaa as the speaker at SFWMD on the iModel.

I recently attended the ASCE President's and Governor's Forum in Reston, VA and learned a great amount about ASCE and leading the branch as well as met key connections of other ASCE presidents and resources. It was a great opportunity to hear technical presentations and network.....

We have had several great field trips, events and volunteer opportunities highlighted in this newsletter and look forward to many more in 2018. Be sure you subscribe to our email list and friend us on Facebook! In February, our annual Engineering Family Fun Day will be held at Dreher Park and the E-week banquet will be held at the Palm Beach County Convention Center. There is also a great opportunity to inspire future engineers with FAU Self Driven February 17-19 at Museum of Discovery and Science.

Be sure to check out the job opportunities in this newsletter as many of our members are hiring.

Thank you and please feel free to contact me at any time with questions, ideas or general feedback. I want to make sure all of you to get what you want out of your membership and the branch.

Sincerely,

Raymond Sciortino, P.E.
President, ASCE Palm Beach Branch

FLORIDA SECTION ANNUAL CONFERENCE

2018 | INNOVATIVE INFRASTRUCTURE

July 12-13 at the The Vinoy® Renaissance | St. Petersburg, FL

CALL FOR SPEAKERS

The 2018 Annual Conference for the ASCE Florida Section will be held at The Vinoy, July 12-13, 2018. The Annual Conference is the largest event held by the Florida Section and is attended by hundreds of municipal and private firm engineers/managers from across Florida and the surrounding states. The technical sessions at the Annual Conference have something of interest for everyone.

Technical sessions will be offered in 30-minute and 50-minute sessions and the final technical program schedule will be based on submitted presentations. The technical sessions will provide 1 Continuing Education hour (CE) for a 50-minute presentation and 0.5 CE for a 30-minute presentation. Technical content will be reviewed by the ASCE Florida Section for consistency with our continuing education guidelines and will be generally aligned with our Institutes in the following categories:

Presenting at this conference:

Earns 2x the CE Credits

Highlights the successes of
your career
and company

Gives back to the
profession

Reduces conference
registration fee

Geotechnical

Structural

Transportation &
Land DevelopmentEnvironmental &
Water ResourcesUtility Engineering
& SurveyingProfessional
Development

If you or someone you know is interested in being a presenter at the 2018 ASCE Florida Section Annual Conference, we ask you to visit www.asceflconference.org and complete the call for speakers form on any of the topics listed above by **January 15, 2018**.

Notification of abstracts selected for presentation will begin **February 15, 2018 (subject to change)**. Speakers will be invited to register at a reduced rate. Speaker registration information will be sent upon notification that the abstract has been selected for presentation.

I'm ready to submit

Just click to visit the online submission form.

Please note there will be word limits on the submissions.

ENGINEERING FAMILY FUN DAY

About Us

The Society of Women Engineers (SWE) and the American Society of Civil Engineers (ASCE) are 501(c) (3) non-profit educational and service organizations.

SWE's mission is to stimulate women to achieve full potential in careers as engineers and leaders, expand the image of the engineering profession as a positive force in improving the quality of life, and demonstrate the value of diversity.

Through the expertise of its active membership, ASCE is a leading provider of technical and professional conferences and continuing education, the world's largest publisher of civil engineering content, and an authoritative source for codes and standards that protect the public.

The Society advances civil engineering technical specialties through 9 dynamic Institutes, and leads with its many professional- and public-focused programs.

The SWE and ASCE membership is approximately 180,000 members globally.

SWE and ASCE Events

SWE

Girl Scouts Engineering Workshops
Professional Development Seminars
Eco-Action Workshops at the Jupiter River Center
Scholarship Program for College Freshmen

ASCE

ENGINEERING FAMILY FUN DAY

SATURDAY
February 10, 2018

DREHER PARK
1301 SUMMIT BLVD
WEST PALM BEACH
(Park is across the street from Dreher Park Zoo)

Jointly presented by
the local chapters of the
Society of Women Engineers
and
American Society of Civil Engineers

IKEA Design Nation and FAU Self Driven Team February 17 - 19

Build a Table
Compete with other families to build a table that can hold the most weight.

Rollercoasters
Construct your own rollercoaster and keep the passengers strapped in so they cannot fall out.

Mobius Strip
Learn the newest technology trains will be riding on in this table talk demonstration.

Anki Cars
See some of the cutting-edge "board games" that involve technology, specifically apps on your phone.

MaxFlight Rollercoaster
If you are a thrill seeker then take a ride on our MaxFlight and be turned upside down and inside out in this two-minute experience. Purchase of a ticket is required.

FAU SELF-DRIVEN
FLORIDA ATLANTIC UNIVERSITY

Join the FAU Self-Driven Team and explore amazing new brain-based technologies in this hands-on exhibit at the Museum of Discovery and Science.

The exhibit includes:

- Drones | Underwater Robotics | Animatronics
- Robo Pets | Autonomous Vehicles | AI Formula E Car
- 3D Selfie and more!

Meet Engineers from South Florida and participate in a variety of engineering activities for the whole family.

FAU High School and University student researchers will be your guides to explain how artificial intelligence allows machines to learn from their experience, not from pre-programming.

Machine learning and artificial intelligence will change the way we do just about everything! Did you know that the same information that makes your brain work can be used to power self-driving cars?

Learn how the science of your brain and engineering combine to create new technologies. Many fields from engineering to medicine are being transformed!

The Engineers' Council

EngineersCouncil.org

Ladies and Gentlemen,

The submission deadline for all nominations is Friday, 15 December 2017.

Nominations for The Engineers' Council 2018 National Engineers Week Awards are now open. We are very pleased to announce that the upcoming event will be the **63rd Annual National Engineers Week Celebration** for our council, and will again be presented at two locations across the nation in conjunction with National Engineers Week.

2018 National Engineers Week Honors & Awards Banquets

Thursday, February 22, 2018
Palm Beach Convention Center
West Palm Beach, Florida
Reception: 6 - 7 PM
Dinner & Program: 7 - 9 PM

Saturday, February 24, 2018
Sheraton Universal Hotel
Universal City, California
Reception: 5 - 6 PM
Dinner & Program: 6 - 10 PM

Nominations can be completed and submitted on our website at <http://engineerscouncil.org/call-for-nominations>.

Award Categories:

- Future Technology Leader Award
- Outstanding Engineering Achievement Merit Award
- Distinguished Engineering Achievement Award
- Distinguished Engineering Educator Award
- Distinguished Engineering Project Achievement Award
- The John J. Guarrera Engineering Educator of the Year Award
- The William B. Johnson International, Interprofessional Founders Award

The submission deadline for all nominations is Friday, 15 December 2017.

Please join us when we present these awards at the Engineers' Council's 63rd annual Honors and Awards Banquets. Banquet reservations may be made directly on the council website <http://engineerscouncil.org/>. Proceeds from the California Honors & Awards Banquet fund the council's STEM scholarships, educational outreach, and mentoring programs that foster future generations of engineers.

Thank you for your dedicated, continuous, and enduring support of The Engineers' Council as we recognize the commitment and hard work performed by so many individuals, companies, societies and universities in the engineering profession. We are a 501 (c)(3) organization, therefore your generous contributions are tax deductible. You may mail in your donation in form of a check directly to the address shown below or donate using our PayPal account (payment@engineerscouncil.org).

Sincerely yours,

Sonja Domazet
President, The Engineers' Council (2012-2018)

The University of Florida is excited to host the 2018 ASCE Southeast Regional Conference this March 1-3!

With over 20 school from the Southeast and Puerto Rico expected to participate, and less than a year to prepare—hosting this event is a huge undertaking on behalf of the students, faculty, and staff of UF’s Civil and Coastal Engineering Department.

Feel free to explore the [website](#) to learn more about what to expect at the conference this year and if your are interested in **volunteering** or **sponsoring** the event please go to “[Conference Support](#)” to sign up to receive more information.

In the coming months UF will be planning and creating the competitions while preparing to host a memorable conference. If you are interested in supporting this exciting event and if you have any recommendations to help make this the best conference ever, now is the time to contact our chapter as UF makes their plans!

Deerfield Beach Municipal Operations Engineer

Deerfield Beach, Florida: An Equal Opportunity and Veteran's Preference Employer

Municipal Operations Engineer: Department of Environmental Services/ Engineering

The Municipal Operations Engineer is responsible for planning, reviewing and updating City design guidelines for transportation, utilities, drainage systems and other municipal infrastructure as well as their standards and specifications. This position has direct responsibility for administering the design, construction, operation and maintenance activities of City infrastructure and ensure that they meet budgetary, safety and environmental requirements. Work is performed with considerable independence within the framework of departmental policies and requires independent judgment in solving problems as they develop in order to maintain the continuous, effective, efficient and safe operation of the City infrastructure. Work is accomplished under the general direction of the Environmental Services Director and is reviewed primarily through consultation, written reports, evaluation of the operations performance and conformance with industry standards.

Duties and Responsibilities:

- Administers the Right-of-Way Management Program. Implements policy and establishes procedures to govern all construction activities in public right-of-way. Oversees the engineering permit approval, issuance, inspection and closeout activities. Coordinates with current and potential right-of-way users to ensure City standards for right-of-way construction are maintained.
- Provides leadership and direction for the City's Stormwater Management Program. Provides input to the annual and multi-year program and budget for the Stormwater Management Program. Oversees the administration of the City's Stormwater utility.
- Manages the work of staff including coaching staff for improvement and development, training, assigning, reviewing and evaluating work performance; coordinating activities, maintaining standards, allocating personnel, selecting new employees, acting on employee problems and recommending and implementing employee discipline.
- Identifies and recommends long-range capital improvements and assists in the preparation of the five-year Capital Improvement Program budget. Facilitates and expedites project progress to ensure adherence to established budgets and schedules. Serves as a project manager on projects of a complex nature. Keeps Director apprised of project status.
- Responsible for overseeing Engineering Division's participation in the City's internal Development Review Board process. Enforces ordinance/code requirements for the extension(s) of public utilities, rights-of-way and drainage solutions associated with private development projects.
- Plans, assigns and directs through supervisors the operations and maintenance of streets, bridges, drainage and other related public infrastructure. Performs inspections of pavement, bridge and stormwater systems.
- Establishes the Department's street maintenance program, establishes annual priorities for maintenance activities and develops the annual maintenance budget. Monitors the execution of the annual work program as required.
- Assures NPDES permit requirements are met and performs annual NPDES reporting.
- Directs preparation of engineering feasibility reports and cost estimates. Provides direction to staff engineers to establish desired results, methods, operations and costs. Provides interpretations of designs, plans, specification, estimates, reports and recommendations relating to City infrastructure. Presents and explains reports as required.
- Assists in the development, implementation and evaluation of department plans, policies and procedures to achieve annual goals and objectives.
- Assists in the development and oversees implementation of divisional operating/capital budgets and establishes budgetary controls. Oversees and approves expenditures. Prepares financial forms and reports.
- Preparation of scope of work for bids, provides recommendations for bid evaluation and award, negotiates and administers contract awards.
- Receives, reviews, prepares and/or submits various records and reports including budget documents, purchase requisitions, purchase orders, bid documents, performance evaluations, invoices, flow charts, agenda items, work orders, personnel forms, memos, etc. Responsible for grant submittals, administration and coordination.
- Has full responsibility to follow, ensure compliance with, enforce and interpret Federal, State and local laws, rules and regulations as well as City policies and procedures. Implements and maintains Federal, State and local mandates. Stays abreast of current developments in industry which may affect City and/or department.
- Provides excellent customer service to both internal and external customers. Oversees public education and outreach programs, represents department, attends and/or facilitates public meetings and assists other departments as required.
- Attends and conducts meetings as required; writes reports and transmittal documents.
- Considered essential personnel in the event of a natural disaster.

www.deerfield-beach.com

KLJ, a market-leading engineering, planning and professional services firm, has an immediate opening for a highly motivated and results oriented **Engineer** to join our **Environmental** team in our **Lake Worth** or **Fort Myers, FL** office.

Job Summary:

As an Engineer IV for KLJ you will be responsible for managing KLJ projects in a timely, accurate, and cost effective manner. It is essential for this role that the individual develops leads, networks and establishes client relationships, and provides strategic thinking for future business development pursuits.

Key Responsibilities:

- Manage multiple project teams
- Provide direction, review, and support to the group by leading projects; assuring proper practices and techniques
- Confer with project team members and clients to lead, prepare, and participate in project proposals and interviews
- May have supervisory responsibilities for group members and support staff including hiring, promoting, terminations, performance reviews, and training

Requirements:

- A four-year degree in civil or environmental engineering is required
- Florida PE license is required
- Experience level is a minimum of 12+ years
- Must have a valid driver's license and be able to operate motorized vehicles
- Project management experience is required
- Progressive experience with dewatering system design, dewatering system construction management, or similar design experience

Preferences:

- Previous experience in senior level management
- Experience with South Florida Water Management District and local municipalities in south Florida
- Progressive experience in Water Resources, Utilities, and/or Coastal Infrastructure projects
- Extensive technical experience in the engineering and design of municipal and transportation projects
- Experience in any or all the following areas: piping and conveyance systems, pump and lift stations, treatment facilities, storm drainage conveyance, shoreline stabilization, waterfront development projects and other municipal and industrial water and wastewater projects
- Progressive experience with increasing levels of project and client management responsibility
- Strong leadership with a history of coaching and mentoring staff
- Established network of consultant, agency, and client contacts in south Florida

Benefits:

At KLJ, we have a vested interest in personal, financial and professional health. Our competitive benefits and compensation program helps employees achieve their goals.
