

## **Construction Technician I/II**

Brelje & Race Consulting Engineers is a multi-disciplined firm offering a broad range of civil engineering planning and design, construction management, environmental permitting and surveying services. With strong roots since our 1954 start in Sonoma County and a diverse project portfolio, our commitment to high-quality technical work and outstanding client service makes us one of the most sought after firms in the North Bay region.

We have an immediate opening for a full-time Construction Technician I or II and are seeking a qualified individual with underground utility, asphalt paving and/or water/wastewater treatment plant experience. The individual will be responsible for field engineering and construction monitoring at various project sites in Sonoma, Lake and Mendocino Counties. The distinction between CT I and CT II is the attained level of experience and education.

Responsibilities include contract compliance monitoring; observation and reporting of construction activities; coordination of quality control testing; tracking and coordinating adjustments to project schedule; and maintaining client goals and expectations. Office duties may include assisting with contract administration services such as reviewing submittals, responding to requests for information, and maintaining construction contract logs and files.
