

**CHS Consulting Group** has an immediate opening for a senior-level transportation engineer for its **Santa Rosa** office. Successful candidates will have opportunities to work on a number of exciting ongoing and upcoming projects. These include the first segment of the California High Speed Rail Project, *ACEforward* regional rail enhancements, Caltrain Downtown Extension Project, and a variety of local jurisdiction traffic engineering design projects. .

Established in 1998, [CHS Consulting Group](http://www.chsconsulting.net) is a multimodal transportation planning and engineering firm offering bold visions and innovative strategies both in the US and abroad. We are a growing company and offer an exciting, collaborative, and supportive work environment. Candidates will have tremendous opportunities to grow with the firm and have an opportunity to work with a group of experienced, talented, and energetic multi-modal transportation professionals.

### **Job Openings**

**Senior Transportation Engineer** – This person will be responsible for traffic engineering and design projects. Candidates should have a minimum of 8 years of demonstrated experience in traffic engineering projects including signal design, sign/stripping design, lighting design, traffic control, and safety studies. Candidates must be a registered Civil PE in the State of California or have the ability to obtain registration within six months of hire. Additional registration (either a California TE or certification as a PTOE) is preferred. Candidate having experience in arterial management systems including traffic adaptive, TSP design, wireless or fiber optics design is preferred. Candidates should be proficient in AutoCAD or MicroStation, have proven project management experience, and demonstrate strong written and oral communication skills.

We offer excellent salary and benefits. Additional information is available at <http://www.chsconsulting.net>.
