

DH Charles Engineering seeks a highly talented individual to join our team as an Associate Engineer. Associate Engineers work closely with, and are trained by, all levels of engineers in the company and immediately work on projects in the following areas:

- Building structural shoring
- Excavation shoring
- Cofferdam designs
- Falsework/formwork designs
- Bridge suspended work platforms
- Scaffold Platforms and Access
- Historic bridge evaluation
- Rebar cage stabilization
- Other miscellaneous temporary and permanent structures

The right applicant for this opportunity will:

- Have a BS or MS in Civil Engineering, with structural emphasis, and 0-5 years of relevant experience
- Be ready to fill a permanent position in our Santa Rosa, CA office
- Have P.E. licensure in Civil Engineering, or obtain within 2 years

DHC offers a Competitive salary with full benefits package including Medical Insurance, PTO, IRA with company match, Long Term Disability, Life Insurance, Identity Theft Protection and bonus potential.

DHC is a leading firm in the construction-engineering field where team members are passionate about their work, innovation and collaboration. We are constantly striving to improve and better ourselves so that we can better support our clients – as reflected by DHC being listed as the #9 ZweigWhite “Best Firms to Work For” in 2017. If you are an inspired individual looking for a dynamic work environment you are probably a great fit for our team!

Interested applicants please send resume along with cover letter to Josh Rubero at Rubero@charlesengineering.com. In your cover letter please outline a challenging situation you have overcome, and why being an engineer for a construction engineering company is interesting to you.
