

Civil Engineer

Brelje & Race Consulting Engineers is a multi-disciplined firm offering a broad range of civil engineering planning and design, construction management, environmental permitting and surveying services. With strong roots since our 1954 start in Sonoma County and a diverse portfolio, our commitment to high-quality technical work and outstanding client service makes us one of the most sought after firms in the North Bay region.

We have an immediate need for a Civil Engineer with water and/or wastewater experience. A career with us is an excellent opportunity to work for a diverse clientele on a broad array of challenging and interesting projects, including planning, design, construction administration and operations support for water and wastewater systems and related infrastructure.

In addition to design experience, the ideal candidate will have the following:

- BS Degree in Civil Engineering
- California P.E. Registration, or can obtain within one year
- Microsoft Office Suite proficiency
- Excellent oral and written communication skills
- Detail oriented
- Goal driven and self-motivated
- Current experience with Auto CAD (Civil3D a plus)

Brelje & Race hires and retains highly qualified people within the industry with most of our staff having more than 15 years tenure. We offer the best of both worlds—a small office work environment with large company amenities and resources. This provides an amazing opportunity for professional development and advancement along with whole life balance, competitive salaries, generous bonuses and a comprehensive benefits package.

Our outstanding team performance stems from an environment that is supportive, challenging and fun. Engaging in monthly activities such as bowling, ziplining and summer picnics, enhances our already strong and effective working relationships.

If you are considering a change to your career path, we encourage you to send us your resume today.
