

Meeting Minutes
 December 10, 2008
 City Hall, 10th Floor, Wichita

President Jessica Rhein called the meeting to order at 12:05, Wednesday, December 10, 2008. She introduced John Oswald who spoke on the ASCE scholarship. This year's scholarship went to KSU senior Jacob Ferrell. Jessica Rhein then introduced vice president Slade Engstrom who introduced the speaker, John Coleman with SENSYS Solutions. John spoke on the types of detection their product is capable of, monitoring, management and detection. He passed around detectors for the group to see. John described the components of the SENSYS system works, the detector is placed in the roadway with an access point mounted to a nearby pole, a repeater may or may not be used, and a content interface is used. Numerous lane configurations are possible with this system. The accuracy of the detector is comparable to that of a standard loop system, with the benefit of being wireless. John gave examples of previous projects SENSYS has done including projects for CAL TRANS, project in Arizona, and Ft. Collins, CO. The meeting was adjourned at 1:00pm. The following people attended.
