

ENGINEERS, INC.

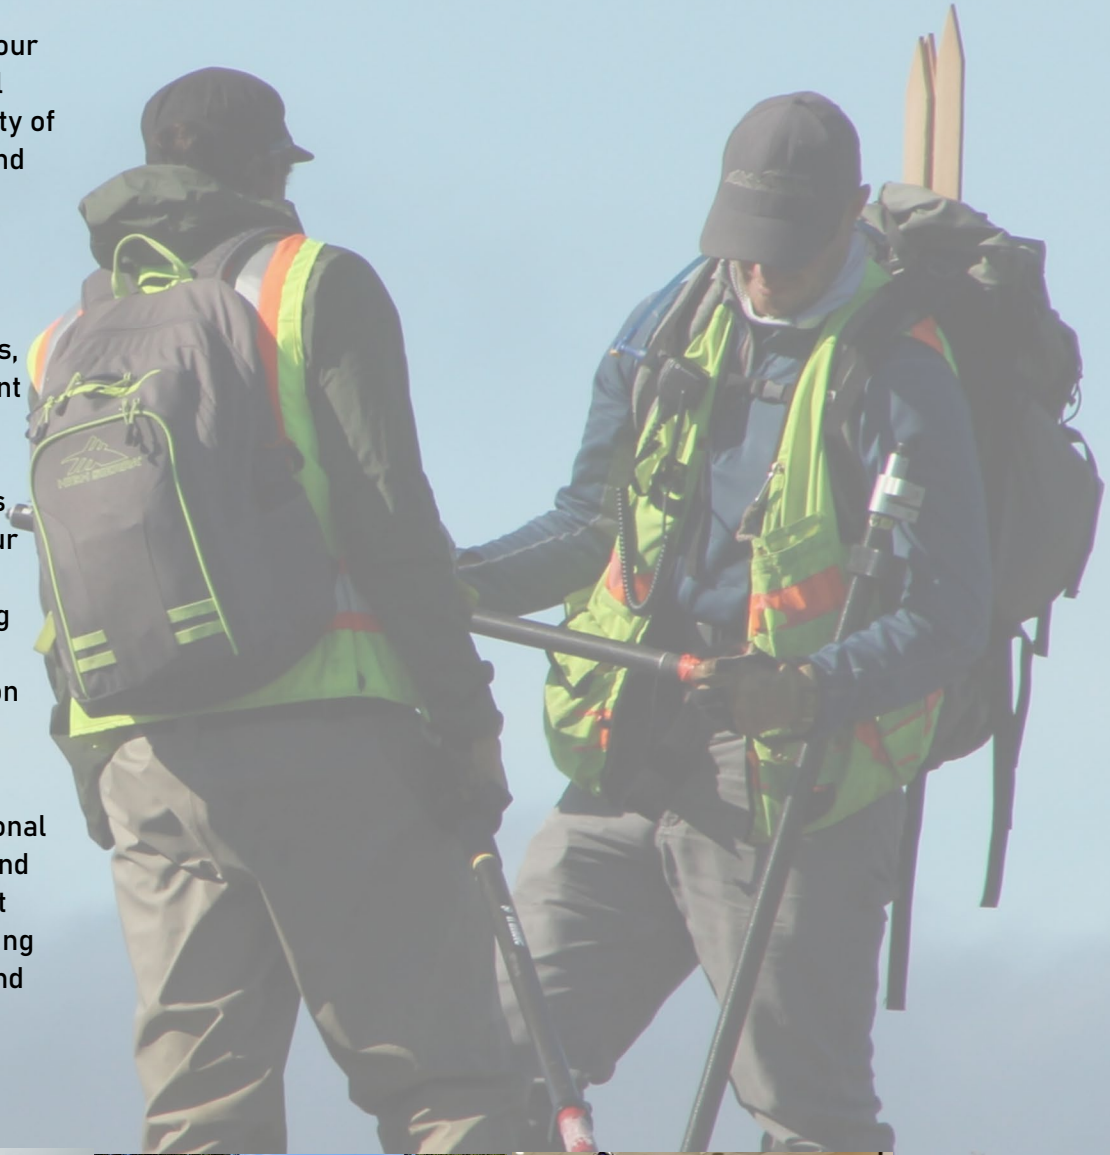

NOW HIRING

CIVIL ENGINEERS

Civil Engineer
Juneau, Alaska

As a civil engineer in our Juneau office, you will collaborate on a variety of interesting projects and hone your skills in general civil design including site development, transportation, utilities, site grading, waterfront facilities and the production of construction drawings and specifications. Our projects include all aspects of engineering design through onsite construction inspection and contract administration.

This job offers occasional travel within Alaska and the opportunity to visit Juneau before accepting an offer. Relocation and temporary housing assistance available.
