

HMB Professional Engineers, Inc. is a leading regional engineering firm with a geographic footprint spanning multiple states and tracing its roots back over six decades. We are currently seeking technical staff for positions in our Frankfort, KY, Lexington, KY, New Albany, IN, Montgomery, AL, Marianna, FL, and Nashville, TN offices. A working knowledge of CADD software and Microsoft Office suite, high-level communication ability, organizational and time management skills, the ability to work within a team framework as well as independently, and self-motivation are also desired for all positions.

Engineering Technician - Candidates should be proficient, or willing to become proficient, in one or more of the following software packages: Bentley MicroStation, Open Roads Designer, InRoads, AutoCAD, Civil 3D. Experience processing field survey data, plat preparation, and development of digital terrain models is preferable, but not required. This position could be based in the Frankfort, KY, Lexington, KY, Nashville, TN or New Albany, IN offices, and will support operations in KY, TN, IN, FL and AL.

Entry Level Transportation Design Engineer - Ideal candidates should hold their EIT certification. No experience is required. The successful candidate should have a willingness to achieve proficiency with MicroStation and Open Roads Designer software packages, as well as other design related software, and be open to construction inspection field work as necessary. Positions are available in our New Albany, IN, Nashville, TN, Lexington, KY and Frankfort, KY offices.

Transportation Project Manager - Ideal candidates should hold their PE certification and be willing to pursue licensure in multiple states. Six to 10+ years of experience is desired but not required. Project Management experience is desired, as is DOT project experience. This position may be located in Indiana, Kentucky, Tennessee, Alabama or Florida.

Traffic Engineering Project Manager - Ideal candidates should hold their PE certification and be willing to pursue licensure in multiple states. Candidates should be proficient in one or more of the following software packages: Highway Capacity Software, Synchro/SimTraffic, Vissim, TransModeler, and TransCAD. Ten to fifteen+ years of experience in the traffic engineering field is desired but not required. Project and/or Client Management experience is desired, as is TDOT and local Tennessee project experience. This position is located in the Nashville, TN office.

Water Resources Project Manager - Ideal candidates should hold their PE certification and be willing to pursue licensure in multiple states. Six to ten+ years of experience is desirable but not required. Project and/or Client Management experience is desired, as is treatment process design experience. This position may be located in the Frankfort, KY, Lexington, KY or New Albany, IN offices.

Water Resources Senior Project Manager - Ideal candidates should hold their PE certification and be willing to pursue licensure in multiple states. Ten to fifteen+ years of experience with public infrastructure projects in the water resources field is desired. Project and Client Management experience is required, and water and/or wastewater treatment design experience is desired. This position will require the successful candidate to complete projects in multiple states and may be based in Frankfort, KY, Lexington, KY, New Albany, IN, Nashville, TN, Marianna, FL or Montgomery, AL offices.
