

Civil PE Exam Review Course

Begins Monday, August 31th

If you know someone who is taking the exam on October 23, 2020, please pass this information along. If you would like to sit in on some of the sessions as a refresher for PDHs, you may register for a single session (or more) also.

The PE Civil exam review course will be a web-based offering through Microsoft Teams. We believe that the web-based course will allow students to safely attend the course and interact with the instructors.

As we have in the past, the course will be taught by Professional Engineers and based on the ***Civil Engineering Reference Manual*** (Lindeburg 15th edition). It will focus on the “breadth” (morning) portion of the exam and will include the general topics covered during the morning part of the exam. Seismic and land surveying will **not** be covered, as they are not covered on the morning exam. Sessions include Water Resources, Geotechnical, Structural, Construction and Transportation.

We are offering a one-time **discount of \$100** per person to accommodate for the impact of COVID-19 on A/E firms. The updated cost will be \$250 per person for members and \$450 for non-members and will include TSPE membership free for 6 months.

Civil PE Exam Review Schedule – Fall 2020

Online Course

(Subject to change)

Date	Topic	Hours	Instructor
