

Join us and grow your career with a certified Great Place to Work for the last nine years running. We are a team of Engineers, Architects, Surveyors and Scientists committed to making meaningful contributions to the world around us. Our quest for excellence goes beyond the ordinary; we seek extraordinary people who want to showcase their talents and join us in making a difference for our clients and communities. You will be part of a collaborative group that champions your career and passions, embraces challenges, understands the importance of work-life balance, and shares our commitment in making a positive impact through your work.

Farnsworth Group is seeking a Sr. Municipal Engineer - Project Manager in our Fort Collins or Denver, CO office. In this role, you will be focused on the planning, design, and management of various civil engineering projects for local and government agencies. You will be responsible for scoping, planning, managing, directing, and monitoring all aspects of medium to large Municipal projects and contracts with high degrees of technical complexity. This opportunity is to help drive growth of our Colorado Municipal Group and potentially expand our service line.

Job Activities:

- Manage, support, and build relationships with clients and agencies
- Work on a variety of projects for municipal clients related to water and wastewater, land development, and others
- Support internal and external clients on Municipal related projects
- Balance internal and external project schedules and staffing
- Prepare project proposals (Scopes of Work and associated fees)
- Assist in business development efforts
- Conduct field inspections, measurements or calculations
- Prepare and develop design and construction documents

Specific Requirements include:

- Bachelor's degree in Civil Engineering
- 12 - 20 years of Civil Engineering experience
- Professional Engineer (PE) License required
- Extensive experience or understanding of working with state and local authorities
- Strong team player that can manage and contribute to several projects simultaneously
- Experience with land, water, wastewater, and/or stormwater projects for Municipal clients
- Strong project management skills, with experience in client service management
- Experience working directly with the owner to ensure project completion and owner satisfaction
- Experience in preparing construction documents (plans and specifications, including front end documents) for a variety of civil projects
- Professional engineering design and project oversight including Quality Assurance and Quality Control.
- Working knowledge of AutoCAD and Civil3D

About Farnsworth Group

Farnsworth Group is an award winning, employee-owned engineering, architecture, and surveying firm with more than 500 employees located in nearly 30 offices nationwide. We are ranked among the nation's top design firms with clients ranging from small communities to some of the world's largest brands. Our success is the direct result of our talented people, unwavering passion, and exceptional performance. Together, we collaborate with clients to define what matters most to them and strive to

move them forward with proven solutions. We do this by focusing on our mission that centers on championing our clients' successes, advancing our communities, and embracing the challenges of a changing world.

A Great Place to Work Certified

For nine consecutive years, Farnsworth Group has earned the esteemed certification as a Great Place to Work; our employees are the reason why! Annually, our staff engages in a survey administered by the Great Place to Work organization that delves into employee perceptions about credibility, respect, pride, fairness, and camaraderie. Those results are benchmarked against the nation's leading companies, and only those top performers gain the Great Place to Work certification. The invaluable insights from the survey have played a pivotal role in further shaping our work environment and fostering a culture to make Farnsworth Group an even greater place to work.
